Note: Crime data is reported voluntarily. As not all departments report a full year of data, the totals and 'percent change' figures reported here are based only on agencies which reported at least 3 months of data for both 1995 and 1996. Please see important notes on this data at the end of the table.

This report is considered preliminary and is subject to change if more complete or amended data is received by the Crime Reporting Unit.

Notes of this table:

Crime reporting in Massachusetts is a voluntary program. As a result, not all departments participate year to year. In addition, some departments do not submit a full year of data.

Estimates are ONLY made for departments which submitted at least 3 months of crime data in a year.

Year-to-year comparisons can only be made for agencies which submitted at least 3 months of data for BOTH 1995 and 1996.

The "Unadjusted" crime figure is the total for all agencies for both 1995 and 1996 and is not used for comparative purposes.

The "Adjusted" crime figure only includes agencies that submitted data for both years. The "% Change" figure is based on the "adjusted" crime data.

The Springfield Police Department converted to a new, automated record management system in June, 1996. As a result of the conversion process, the figures for Aggravated Assault and Motor Vehicle Theft are not comparable to those collected in 1995. Year to year comparisons should not be made of these data.

Care should be used whenever comparing crime data from one year to the next, or from one department to another. Police record management systems may be changed or upgraded, which may make comparisons difficult.

* Agencies that reported no full-time sworn employees, but did report at least one part-time sworn employee on their 2000 Police Employment Survey are considered Part-Time Departments.

** For towns that did not submit a 2000 Police Employment Survey it cannot be determined whether they are Part-Time or Full-Time Departments or whether they are covered by another agency such as State Police.

Table Notes:

All agencies which reported at least 3 months of data in both 1999 and 2000 are included in the statewide totals in this report. Estimates were made for agencies which reported at least 3 months of data in both years. For agencies which reported less than 3 months of data, no estimates were made. The Crime Reporting Unit will accept data from agencies which have not submitted complete data for 2000.

The figures which are herein reported should be considered PRELIMINARY and subject to revision or change. Although every care has been made to assure the accuracy of the data presented here, data entry errors may have been made.

There is an error on Page 5. The town name should be Middleton NOT Middletown. Sorry for any confusion.

* Agencies that reported no full-time sworn employees, but did report at least one part-time sworn employee on their 2001 Police Employment Survey are considered Part-Time Departments.

** For towns that did not submit a 2001 Police Employment Survey it cannot be determined whether they are Part-Time or Full-Time Departments or whether they are covered by another agency such as State Police.

Table Notes:

All agencies which reported at least 3 months of data in both 2000 and 2001 are included in the statewide totals in this report. Estimates were made for agencies which reported at least 3 months of data in both years. For agencies which reported less than 3 months of data, no estimates were made. The Crime Reporting Unit will accept data from agencies which have not submitted complete data for 2001.

Change in Aggravated Assault figures may be due to increased accuracy in police reporting practices and may not reflect an actual decrease in Aggravated Assaults.

The figures which are herein reported should be considered PRELIMINARY and subject to revision or change. Although every care has been made to assure the accuracy of the data presented here, data entry errors may have been made.

Only departments which submitted at least 6 months of data in both years are included in this report

The data in this report is considered "preliminary" and is subject to modification and/or correction. It is as accurate as possible as of the date it was produced.

Care should be used whenever comparing crime data from one year to the next, or between different police departments. Police record management systems may be changed or upgraded, which may make comparisons difficult.
